

MESSAGE I RECIEVED FROM THE LORD.

31st December 2022 about after 9am.

I do not know what you... but for me, when I sense a great shift in nature and life in general, I keep asking my God what is happening and what next? How can I sail on this wave before me, about to come also. And 2023 is not an exception. But this time, I have for long now waiting and asking my Lord God Almighty – but receive nothing, until this morning. Funny enough, when I was doing my personal care in the bathroom. I quickly ran out and call my daughter to please get a pen and paper and she should start writing....Infact, this morning 31<sup>st</sup> December 2022, I woke up feeling very heavy and sick. I told my kids that were with me at home that am feeling sick, I prayed for healing and then decided to do my personal care. It was then the Lord came....After the word from the Lord, no symptom of heaviness or illness again

These are the words from the Lord to and through me to all....
